

# MagicINFO Migration

Quick Reference for Sales | Q2 2026

## THE SITUATION

MagicINFO On-Premise end-of-sale: 1 January 2027 | End-of-support: 2029. Every On-Premise customer needs a transition plan. Migration is FREE for existing MIS customers. Migration service fee applies for non-MIS MagicINFO users.

## THREE MIGRATION PATHS

MagicINFO Cloud (MIS)	TDM Digital Signage	VXT Services
Samsung-hosted. Same interface. No hardware changes. Content transfer.	Any screen brand. HTML5 editor. 9 languages. 30-day free trial.	Full CMS. Remote monitoring. Onboarding included. Training and consultancy.
Best for: Minimal disruption	Best for: Mixed-brand setups	Best for: Managed services
Your team already knows MagicINFO. Cloud means same experience, zero infrastructure.	If your client has non-Samsung screens or wants vendor independence, TDM is the fit.	For clients who want someone else to handle complexity, VXT wraps CMS with full service.

## QUICK DECISION GUIDE

Minimal change:	MagicINFO Cloud
Mixed-brand displays:	TDM
Managed services/SLAs:	VXT
Free trial first:	TDM (30-day)
Existing MIS customer:	Migration is FREE
